Technical information

Standard Features

- Ergonomic clipping position
- First clip is pulling sheet, which make it easier to find second clip and reduces hard physical labour.
- Buffer of sheets average peak and drops in clipping production
- Combines Quality with high speed
- Automatic or semi automatic sorting possibilities (sheets, duvets, draw sheets)
- The Amtrans is automatic calling the sheets from the rail system, whereby the feeder, ironer and folder are automatically switched over to the right program and speed.

Optional Features

- Rail system without sorting
- Rail system with limited sorting
- Rail system with full sorting possibilities
- Automatic sorting on hanging length
- Custom separation system with chips in clips
- Other options on request
